This Protocol is used to document damage, destruction, loss, disappearance, unauthorised release, unexplained discrepancy or any other event concerning a FIXON product or item transferred to a Partner under the FIXON Partner Programme.

In particular, the Protocol may cover start-up products, warehouse-support products, test tools, demonstration products, exhibition products, premiere products, custom products, marketing materials and other elements entrusted to the Partner.

The conclusion of the Protocol does not automatically prejudge the Partner's guilt or the manner in which the event is settled, but provides the basis for verification, clearing decision and possible issuing of the accounting document in accordance with the FIXON Partnership Programme, Pricelist and related documents.
